Application No. 10/635,199

Continuation of 3. NOTE: The subject matter of the new claim 9 further consideration and possibly search.

Continuation of 11. does NOT place the application in condition for allowance because: Applicant's arguments are not persuasive. Applicant's argument concerning "predicting an impact..." was previously addressed. The language "without having to run the executable again" is not found in claim 1. Applicant's other argument is addressed to subject matter that will require further consideration and possibly search. It is not immediately clear how page 11 supports the new subject matter. Therefore, the claims remain rejected as previously indicated.
